

Exporting: React

- ✦ No official package
- ✦ Several third party packages
 - ✦ web-react-components, react-web-components, skatejs
- ✦ Roll-your-own build process

My pick: <https://github.com/ChristophP/web-react-components>

Exporting: Vue

- ✦ Official package: @vue/cli and @vue/cli-service-global
- ✦ CLI support build output
- ✦ Expects app will also import Vue

<https://cli.vuejs.org/guide/build-targets.html#web-component>
